

BUI VU THIEN AN

INFORMATION TECHNOLOGY

I have experience with Java, Spring Boot, ReactJS, and NextJS, and I am passionate about exploration, self-learning, and skill enhancement in the IT field. Additionally, I have worked at a Japanese Language Center, where I managed content, created enrollment banners, developed instructional materials, and maintained cleanliness and organization in the workspace. I also monitored student progress and managed records, including tuition fees and class schedules, to ensure smooth operations.
